

## Features

### **Tough Engineered Stone**

Silkstone basins are made from a mineral rich engineered stone of immense strength & purity. Unique mechanical properties and ease of cleaning make it the best material for crafting the world's finest basins.

### **Renewable Silky Finish**

Just like the Baths, these basins are free of any decorative surface layers, what you see on the outside is what it is inside, perfectly smooth crafted white Silkstone. Being perfectly homogenous, any small marks or scratches from wear over time can be easily buffed out and the surface made to look brand new again.

### **White Silkstone waste**

All Silkstone Basins are fitted with this beautiful free flow white silkstone waste. This enhances the smooth white appearance and looks the part in modern bathrooms.
